Careful planning allows a student to continue pursuing their passion for music and to participate in other activities. Look at the high school plan as a jigsaw puzzle; then figure out how to fit what you have to take and what you want to do in the puzzle.

- This plan with two more electives (such as show choir) satisfies the Arts & Humanities Endorsement for graduation.
- There is space for another four year elective (athletics takes two blocks) or a series of Ben Barber courses (with careful planning).
